Dear Dept. of Financial Protection and Innovation,

I urge you to reconsider any proposed rules or regulations that would force fees upon Californians for accessing their hard-earned wages. Let's work together to create a fair system that benefits everyone.

Access to our hard-earned wages should be a given, not something we have to pay for. These fees are especially unfair to those who are already struggling to make ends meet. Please reconsider PRO 01-21.

Laura Christian
