Hello my name is Carrie Fraizer.

I don't think I've had a fair introductory with any part of dealing with any part of financial protection, whistleblower's protection, healthcare (state or private), the government, local officials because my information is always exploited by people that are entrusted by those believing they would do the right thing.

I've dealt with months of lies, deceit, accusations and missing information. This has lead to harm to my character as well as my human person. I've notice that I can't apply or sign up for programs or agreements because my information has been used and already entered into a contacts and seems already tarnished and misused.

I would like the chance to accurately and wholeheartedly enter into these programs without individuals and/or organizations taking the chance from.

I've read and read so much that I'm pretty unsure what to do. As I feel like things are on track, someone will withhold information, e.g. mail and/or sale/share my information for others but myself to gain from. I have been in touch with DHS, Care Oregon and have tried to contest an old counselor i was seeing at the beginning of this year at the Blackburn Center, as well as committing to seeing the same doctor I started seeing at the recently.

---

At this point, I would like to know whom I can contact that can help me in this situation. I believe a few times I was harmed with the effort to inflict permanent

damage and take my life. Not only myself, but also my dog is being harmed. Rumors are being spread and staff are not following any legit rights or laws when it comes to my personal information. I have tried to keep some kind of documentation on everybody regarding my rights and the need for privacy and everybody in my apartments including staff have made it hard and has allowed lies and dishonest individuals to make reports and this includes staff.

I feel like my email [REDACTED] has been badly compromised so I am now using [REDACTED] until further notice, but this will shortly be compromised as well. I am using the number 971.999.7180 currently. Its not a phone service, but just an internet number. I don't have internet service. I feel like all these services have complicated things and made it harder for me to keep my information protected.

If I could get a response with information on whom to contact, I will do so tomorrow.

Thanks for listening,  
Carrie Fraizer
