

Good Morning,

We truly believe in honest and transparent policies in our business practices, but unfortunately more new regulations on our companies operating in California will have a huge negative impact.

We're currently seeing many small businesses and business owners relocating out of CA, and I truly believe its due to our high taxes and many usurious regulations placed on small businesses.

I hope your office makes the appropriate decision in not quickly passing new regulations that have not been fully thought through and see it's true real life impact on businesses and why so many are currently leaving CA.

God Bless!
