## EXECUTIVE SUMMARY

The Department of Business Oversight licenses and regulates finance lenders, brokers, and Property Assessed Clean Energy (PACE) Program Administrators pursuant to the California Financing Law (CFL).

In this report, the Department of Business Oversight (DBO) has compiled data submitted by finance lenders, brokers, and program administrators licensed under the California Financing Law. The licensees submitted the data pursuant to Financial Code sections 22159(a), 22160, and 22692.

Key findings of finance companies' activities in this report include:

- Finance lenders originated a total of 1,893,411 consumer loans in 2019, a 16.9 percent increase over 2018. The total principal amount of loans made in 2019 increased by 68.1 percent in comparison to 2018 (from \$34 billion to \$57 billion).
- The increase in the total aggregate principal loan amount was largely due to the increase in the number and principal amount of real estate secured loans funded in 2019.
- In 2019, the total principal amount of real estate secured loans funded was \$47.3 billion in comparison to \$23.9 billion in 2018, while the total number of loans funded increased to 120,519 in 2019 from 65,872 in 2018.
- Unsecured loans accounted for 79.5 percent of the total number of consumer loans made in 2019.
- Consumer loans with principal loan amount under \$2,500 accounted for 40.2 percent of the total number of consumer loans made in 2019. Unsecured loans made up 98.7 percent of loans with principal amount of less than \$2,500.
- The number of commercial loans originated in 2019 increased 6.6 percent to 905,341 from 849,161 in 2018, and the aggregate principal amount of such commercial loans increased 0.9 percent over the same period, to \$186.4 billion from \$184.7 billion from 2018.
- The number of consumer loans made online in 2019 increased 69.1 percent compared to 2018. The principal amount of such loans increased 134.0 percent in comparison to 2018. Unsecured consumer loans accounted for 95.1 percent of the total number and 23.9 percent of the aggregate principal amount of consumer loans made online.
- The number of commercial loans made online in 2019 increased by 102.2 percent and the principal loan amount of such loans increased by 61.5 percent compared to 2018.
- Beginning on page 36, the DBO is reporting PACE program financing activities for the first time pursuant to Financial Code Section 22692(b).

## BACKGROUND

The California Financing Law (Financial Code, § 22000, et seq.) (CFL) requires the licensing and regulation of finance lenders, brokers, or program administrators.

The CFL limits interest rates on consumer loans with principal loan amount under \$2,500 but does not cap interest rates on consumer loans of \$2,500 or higher.\*

Financial Code section 22159(a) states:

*22159. (a) Each finance lender, broker, and program administrator licensee shall file an annual report with the commissioner, on or before March 15th, giving the relevant information that the commissioner reasonably requires concerning the business and operations conducted by the licensee or authorized by the program administrator licensee within the state during the preceding calendar year for each licensed place of business. The individual annual reports filed pursuant to this section shall be made available to the public for inspection except, upon request in the annual report to the commissioner, the balance sheet contained in the annual report of a sole proprietor or any other nonpublicly traded person. "Nonpublicly traded person" for purposes of this section means persons with securities owned by 35 or fewer individuals. The report shall be made under oath and in the form prescribed by the commissioner*

Financial Code section 22160 states:

*22160. The commissioner shall make and file annually with the Department of Business Oversight as a public record a composite of the annual reports and any comments on the reports that he or she deems to be in the public interest.*

This report contains unaudited data provided by licensees for the calendar year ending December 31, 2019.

As of December 31, 2019, the DBO licensed 3,616 lenders and brokers. Of the 3,616 licensees, 3,401 filed their required annual reports. The DBO notified the non-filers of its intent to revoke their licenses.

As of December 31, 2019, the DBO licensed 5 PACE program administrators who enrolled 6,443 PACE solicitors and 51,095 PACE solicitor agents. All PACE program administrators filed their reports.

Data obtained from a small number of finance lender and broker licensees who filed annual reports after the aggregate report was compiled is not included. This omission does not materially affect the data in this composite report.

Due to rounding, numbers presented throughout this report may not add up precisely to the totals provided, and percentages may not precisely reflect the absolute figures.

This report and prior years' reports can be found on the DBO's website at [www.dbo.ca.gov](http://www.dbo.ca.gov).

\*Through December 2019, the CFL limited interest rates on consumer loans under \$2,500. Effective January 1, 2020, Assembly Bill 539 (Limón, stats. 2019, ch. 708) enacted the Fair Access to Credit Act (the Act). The Act makes changes to permissible rates of charges: For any consumer loan of a bona fide principal amount of at least \$2,500 but less than \$10,000 (including commercial loans of \$2,500 to \$5,000), a finance lender may not contract for or receive charges at a rate exceeding annual simple interest of 36 percent plus the Federal Funds Rate. The data in this report entirely predates the effective date of AB 539.

## I. HISTORICAL LICENSING DATA

The table below shows the number of California Financing Law (CFL) licensees (including branches) at the end of each calendar year, and the number of license applications the DBO received each year for the last 10 years.

### Property Assessed Clean Energy (PACE) Program Key Findings Calendar Year 2019

On October 4, 2017, the Governor signed AB 1284 (Chapter 475, Statutes of 2017). The bill renamed the California Finance Lenders Law as the California Financing Law and set forth a licensing scheme for Property Assessed Clean Energy (PACE) program administrators. A “program administrator” is a person administering a PACE program on behalf of a public agency. (Fin. Code, § 22018.) A PACE program provides financing for the installation of energy-efficiency improvements on real property with funding repaid through property tax assessments, as authorized by specified laws. (Fin. Code, § 22016.)

Financial Code section 22692 states:

*22692 (a) The commissioner shall require a program administrator to submit the following information in the annual report filed under Section 22159:*

- (1) Information beneficial to an evaluation of the overall impact on property owners caused by the 97 percent cap on total PACE and mortgage-related debt.*
- (2) Information beneficial to an evaluation of the overall impact on property owners caused by the use of an automated valuation model in determining the market value of property subject to a PACE assessment.*
- (3) Information beneficial to an evaluation of the overall impact on property owners caused by the emergency HVAC provisions.*
- (4) Information relevant to determining the overall impact on property owners of the absence of a minimum residual income threshold.*

Key findings of this report include:

- PACE program administrators reported gross income of \$62,493,387 from PACE program assessment financing.
- The total amount of assessment contracts funded by PACE program administrators was \$362,347,433.
- The total number of PACE assessment contracts funded and originated in 2019 was 12,335.
- The total number of PACE assessment contract funded reported under Streets and Highways Code (S&H Code) section 5954 was 12,350. The data collected under S&H Code section 5954 includes PACE assessments originated prior to 2019. Detail information required under S&H Code section 5954 is available by city, by county, and by ZIP Code.
- In 2019, the aggregated total fees and other charges assessed to property owners, including interest, was \$83,337,986.

**Exhibit K (continued)**  
**Property Assessed Clean Energy (PACE) Program**  
**Key Findings**  
**Calendar Year 2019**

- PACE program administrators reported making a total of 23 PACE assessments involving a case of emergency or immediate necessity under Financial Code section 22687 subdivision (e), meaning the program administrator did not determine and consider the current and reasonably expected income or assets of the property owner in accordance with Financial Code section 22687, subdivision (b).
- The reported estimated amount of greenhouse gas emissions reductions in 2019 was 277,644 kilotons (KT).
- The number of jobs created during 2019 was estimated to be 3,254.
- 593 PACE assessment contracts were canceled by consumers within three days of executions in 2019.
- 1,935 PACE assessments were funded for HVAC systems, boilers, or other temperature regulation systems not in the case of emergency or immediate necessity.
- The program administrators provided the number of energy and water saving improvement products installed during 2019. However, not all the program administrators tracked the overall average efficiency rating, and whether these installed energy and water saving improvement products qualified for Energy Star program.
- An evaluation of the overall impact on property owners caused by the 97 percent cap on total PACE and mortgage-related debt was not included in this report. The 2019 data submitted by PACE program licensees will serve as the baseline for delinquencies reported in future years.

**VIOLATIONS FOUND DURING EXAMINATIONS**

PACE program administrators are subject to an inspection, examination, or investigation by the Commissioner. The information provided in this section was obtained from regulatory examinations the DBO conducted of PACE program licensees from January 1, 2019 through December 31, 2019. These examinations were conducted under the authority of Financial Code sections 22690 and 22701.

The purpose of regulatory examinations is to obtain information about whether PACE program licensees have complied with the program's regulations. In 2019, the DBO conducted two regulatory examinations of two of the five program licensees.

**RECOMMENDATIONS FOR IMPROVING PROGRAM**

The licensing and regulation of the PACE program by DBO commenced on January 1, 2019. Currently, there are only five PACE program administrators licensed with DBO. Given these factors, the DBO believes making recommendations for improvement is premature at this time.
