Commissioner Clothilde Hewlett
California Department of Financial Protection and Innovation
2101 Arena Boulevard
Sacramento, CA 95834

RE: USER SIGN-ON LETTER SUPPORTING EARNED WAGE ACCESS

Dear Commissioner:

Enclosed is a sign-on letter of over 6,300 earned wage access users from multiple providers (Payactiv, DailyPay, and Earnin) across California. These signatures were collected during a one-week period in May, and it was fully optional for users to sign on to the letter.

We have redacted the last name of users to protect their privacy, given this letter is published on the internet. We are able to provide the full list to the Department upon request.

Sincerely,

Aaron Marienthal
General Counsel, Payactiv
amarienthal@payactiv.com

Commissioner Clothilde Hewlett
Department of Financial Protection and Innovation
2101 Arena Boulevard
Sacramento, CA 95834

Re: Benefits of earned wage access to California workers

Dear Commissioner Hewlett:

We are over 6,000 users of earned wage access (EWA) from multiple providers in California, and we are concerned that the California Department of Financial Protection and Innovation's recently proposed EWA regulations will limit the number of providers able to operate in the state and increase costs and fees without bringing any actual benefits to consumers.

It is getting harder and harder for us as working Californians to make ends meet. There are both life's essential needs like rent and groceries, as well as many unexpected expenses like medical bills, home repairs, and car troubles that come up between paychecks.

Having access to already earned pay makes a real difference in the lives of working Californians like us, and EWA gives us control and flexibility over our finances. EWA improves our overall financial well-being and helps us avoid the debt that comes with much more expensive alternatives for workers who do not have adequate savings or affordable access to liquidity. EWA is a low cost or no cost option, which is why these regulations that will limit access to EWA and increase service costs in California are so concerning to us.

Specifically, EWA is a responsible and critical service that helps us pay our utility and rent bills on time, buy groceries, pay for childcare, budget, and save – all while weathering unexpected emergencies and avoiding cycles of debt from other financial products with exorbitant fees. It is how we are able to avoid late fees, service shut offs, credit card debt, title loans, overdrafting a bank account, or payday loans.

The proposed regulations would significantly impact our ability to access this safe and convenient service by likely requiring us to return to much more costly alternatives like taking out a loan, in place of accessing wages that we have already earned. Also, by turning EWA into a loan, it would expose us to credit underwriting and reporting, recourse and associated collections, and complicated fee structures, all leading to higher costs and fees. The proposed regulations fail to meaningfully consider the impact on EWA users and instead add more risks without any meaningful benefit to consumers like new alternatives.

We urge you to reconsider the proposed EWA regulations and issue a revised proposal that adequately takes into account the needs of Californians already using EWA.

Sincerely,
