Dear Commissioner Hewlett,

I write in strong opposition to the proposed rulemaking on Earned Wage Access services. Like millions of Californians who live paycheck need this app. I am a single mother Earn helps me when I'm short on buying groceries. And it helps me not over draft my account I'd an emergency comes up. I hope you all rethink this decision and continue to help the little people out. And keep Earn to help people out.

Sincerely,

EDreana Black
